

ARE YOU INTERESTED IN *DERMANYSSUS GALLINAE*, THE POULTRY RED MITE ?

Take your chance and APPLY NOW FOR:

SHORT TERM SCIENTIFIC MISSION (STSM)

Within the **COST ACTION FA1404** - Improving current understanding and research for sustainable control of the poultry red mite *Dermanyssus gallinae* (COREMI)

Who can apply?

- PhD Student
- Postdoctoral fellow
- Employed by/affiliated to an Institution or legal entity coming from one of the COREMI countries listed at: <http://www.coremi.eu/our-network/management-committee.html#c14259> (Same or different Institutions listed).

To do what?

- To improve knowledge;
- To work on PRM and foster collaborations;
- To start and share research;
- To learn new techniques;
- To have access to instruments and/or methods not available in your own institution/lab.

On which research topics?

- Epidemiology;
 - Pathology;
- Geographical mapping
- Surveillance tool;
 - Genetics;
- One Health approach
 - Immunity;
- Developing alternative control measures.

To go where and for how long?

You may visit a lab located in one of the countries listed at: <http://www.coremi.eu/our-network/management-committee.html#c14259> (Same or different Institutions listed) and spend there from 5 days up to max 3 months.

Who will support me?

Coremi will support you with a grant for the costs of the visit and is meant as a (good) contribution.
