

Fish-borne parasitic zoonoses: facts and trends

Program h 14:00 – 16:30

14:00 – 14:05 Fabrizio BRUSCHI (University of Pisa, Italy)

Welcome of the President of SOIPA

14:05 – 14:10 Simonetta MATTIUCCI (Sapienza - University of Rome, Italy)

Introduction

14:10 – 14:30 Edoardo POZIO (Istituto Superiore di Sanità, Italy)

*Recent findings on *Opisthorchis felinus* and *O. viverrini**

14:30 – 14:50 Roman KUČHTA (Institute of Parasitology, BC, Czech Academy of Sciences)

Diphyllobothriosis: an emerging fish borne disease

14:50 – 15:10 Andrea GUSTINELLI (University of Bologna, Italy)

Fish-borne zoonotic parasites and aquaculture

15:10 – 15:30 Shokoofeh SHAMSI (Charles Sturt University, Australia)

Anisakids and anisakidosis in Australia

15:30 – 15:50 Paolo CIPRIANI (IMR, Norway - Sapienza University, Italy)

Current research in relation to the presence of anisakid nematodes in fisheries

15:50 – 16:10 Mercedes CARECHE (Inst. Food Science, Technology & Nutrition – Spain)

*Pathogenic potential of *Anisakis* L3 after freezing or cooking*

16:10 – 16:30 Paolo MERELLA (University of Sassari, Italy)

*The neglected zoonotic flukes of the family *Heterophyidae*: an overview*
